Working with Children at Risk - Incorporating Child Protection

Are you ever unsure about what risks are involved with children in context with child protection?

This workshop will explore in depth the issue of risk within a child protection context. How to assess risk, which risks are manageable and what are things perceived risks but are actually protective factors. How do you talk to parents about risks and how do you help parents develop their own risk assessment skills and build protective factors into their parenting?

This workshop will also examine how workers can take care of themselves whilst working within a risk framework.

Workshops Outcomes:

- Increased understanding of what risk is;
- Increased confidence and skills in assessing risks and protective factors;
- Increased understanding of what risks can be held and which can't, and
- Understanding the risks associated with removing children from their families and the long term impact of out of home care on children.

Facilitator: Angharad Candlin is a registered psychologist with over 25 years' experience working with families. She is currently the Manager of Catholic Care's Parent Education Program and the Chair of the Board of the Institute of Group Leaders. Angharad has facilitated parenting groups for most of her career and in addition she trains, supervises and mentors group facilitators. Her team is currently working on a new parenting program for refugees and new migrants called 'Parenting Side by Side in Australia'. Angharad loves the work she does and is passionately committed to helping parents and group facilitators be the best that they can be.
